

Working together to keep you safe on campus.

The health and wellbeing of our staff, students, families and the wider community is our top priority.

As we welcome you back to campus, things may look a little different.

With robust risk assessments in place, we've introduced measures to support the safe, phased return to campus so that you can enjoy a safe and comfortable place to work and study.

We each have a personal responsibility, to ourselves and those around us. We need your support and participation, as we look after each other during this transition.

Arriving & Moving Around Campus

We have put in place directional signage, introduced one-way systems and implemented a one-person limit in all lifts.

We ask you to allow one parking bay between cars, where possible, and to follow the signage on arrival, departure and as you move around campus.

Face Coverings

We will supply face coverings for all staff and students and additional face shields for lecturers and other staff, where required. We ask all staff, students and visitors to wear a face covering on campus, to protect others.

We ask you to be respectful and kind to others, since wearing a face covering may be difficult for some people and the reasons for not wearing a face covering may not always be visible.

Social Distancing

We are overseeing the capacity on campus to enable social distancing. Where queues form, you will find distancing markers to guide you.

We ask for your support in following our social distancing guidelines throughout the campus.

This means remaining 2 metres apart where possible.

Teaching, Research, Study & Office Spaces

We are taking steps to prepare specialist teaching areas such as labs and studios, research facilities, adjusting office workstation layouts and ensuring fresh air flow where possible. We are opening our libraries for study spaces and offering a reserve and collect service.

We ask staff to practice a safe, clear desk policy when on campus. We ask our library users to ensure opportunities for others, and be considerate in this shared study space.

Cleaning & Hand Hygiene

We have enhanced cleaning in areas of high traffic and touch points, using a highly protective and persistent decontamination system in all areas. You will find hand sanitiser stations at the entrance to campus buildings, as well as soap and water in all usual locations.

We ask you to use the hand sanitisation stations as you enter campus, to continue to wash or sanitise your hands well and often, and to avoid touching your face with your hands. If you sneeze or cough please catch it, bin it, kill it.

Facilities & Services

We are operating our sports facilities within public health guidelines, and some catering outlets are open, offering reduced menus – all with additional cleaning in place.

We ask you to comply with the “knock and call” protocol for use of multi-occupancy toilet facilities, to ensure access for only one person at a time. We ask you to be considerate of fellow staff and students when taking part in team or individual sports and fitness activities.
